DETAILED ACTION

This first Office Action is in response to Applicant's originally filed Application received on July 13, 2001 in this case.

Information Disclosure Statement

The information disclosure statement (IDS) submitted on July 13, 2001 is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement has been considered by the examiner.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 4 and 5 are rejected under 35 U.S.C. 102(b) as being anticipated by Riach (5,401,078). Riach teaches each feature of the claimed invention as shown in the attached red marked-up copy of Riach's Figure 7, 8, and 10A-10C.

Allowable Subject Matter

Claims 2 and 3 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Reasons for Indicating Allowable Subject Matter

The following is a statement of reasons for the indication of allowable subject matter: Regarding claim 2, the prior art of record does not teach, in combination with the other features of claim 2, a yoke having upwardly extending parallel arms and attached to the upper end of the support post, a pivot rod extending between the arms of the yoke, the rods having ends extending beyond the outer sides of the arms of the yoke, a pair of rear cantilever arms pivotally attached to the pivot rod and a pair of front cantilever arms pivotally attached to the pivot rod. Regarding claim 3, the prior art of record does not teach, in combination with the other features of claim 3, an adjustable chest pad support rod extending substantially horizontally through an opening in said support post.
